## CHAIRMAN'S MESSAGE

Dear Friends and Colleagues:

On behalf of the International Medical Geology Association it is a pleasure for me to bring to you this N° 25 Newsletter edited by our friend, Dr. Mark Cave.

We sadly inform you about the recent departure of the daughter of our honorable past Editor In Chief, Dr. Dave Elliott and present our deepest sympathy to him and his family.

The IMGA Newsletter is published twice a year and it communicates to our members and global readership our association's activities and latest information on this discipline through the world. In this occasion, we want to thank you again for your important support and contributions to IMGA during 2014, and for your especial collaboration in all those issues that were dealt with and activities that were accomplished for the development and growth of our Association which were reviewed in our season's greetings message.

This 25th Newsletter edition brings to you information about new advisory committee members, chapter activities, scientific events and several opportunities for students.

Our official IMGA Conference: the 6th International Conference on Medical Geology (6thMEDGEO) will be held from 26th July to 1st August 2015 at Aveiro University, Aveiro, Portugal and I hope to meet you in person and discuss new challenges and opportunities to continue the growth of our scientific association (<http://medgeo15.web.ua.pt>)

Hoping you enjoy this 25th Newsletter, receive my kindest regards,

Sincerely Yours, Prof Dr Nelly Mañay Chairperson,  
International Medical Geology Association
